VRF air conditioning system  
design, installation & service

**Daikin AC:** Invented and patented VRV® (variable refrigerant volume) technology more than 30 years ago. Today Daikin remains a global leader, innovator and provider of advanced air conditioning solutions.

Parts,  
Service & BAS

## HTS Parts

As the official Daikin OEM Parts Distributor, we offer competitive pricing and we provide timely solutions for all of your parts and aftermarket needs.

## HTS Service

We provide service, repair and replacement for all commercial HVAC systems!

## HTS BAS

Our full-scale Building Automation Systems department provides a seamless integrated solution for diverse systems and devices – regardless of the manufacturer or communication protocol.

Delivering Real Success®

## Heat Transfer Solutions

**Daikin AC:** World leader in DX split systems. Allows multiple fan coils per condensing unit. Up to 295' height difference between FCU and CU without oil return problems. Efficiency R-410a systems. DX line sizing software available.

**Daikin Applied:** Market leader in innovation and design. Their magnetic bearing chillers and Rebel rooftop units are sweeping the market with ultra-high efficiencies. Superior manufacturing of water cooled chillers, air cooled chillers, air handling units, rooftop units, self contained units, fan coil units, PTACs, and more.

**Aerofin:** Aerofin is a leading manufacturer of spiral fin and plate fin heat exchanger coils and related heat transfer equipment.

**American ALDES:** : Packaged Energy Recovery Ventilators using Enthalpy Core or Energy Wheel. Available with DX or CW cooling coils, and electric or HW heat. Sizes range from 95CFM - 11,000CFM.

**Applied Comfort:** Established in 1995, Applied Comfort is one of the world's leading authorities on the design and manufacture of Packaged Terminal Air Conditioners (PTAC)

**Armstrong:** As your thermal utility partner, Armstrong can satisfy your industry's most unique requirements while helping you improve efficiency and reduce energy consumption and emissions.

**Baldor:** Baldor's mission is to be the best marketers, designers, manufacturers and service providers of industrial electric motors, generators, and mechanical power transmission products.

**Belimo:** Belimo is the global market leader in the development, production, and marketing of field device solutions for controlling heating, ventilation and air conditioning

**Big Ass Fans:** The world's leading researcher, designer and manufacturer of HVLS (High Volume Low Speed) fans focused on delivering purpose-built, cost-effective, energy-efficient commercial & industrial comfort solutions.

**Bitzer:** Refrigeration and air conditioning technologies are key elements of our world. The Bitzer Group has been making a contribution with innovative products and services by promoting development in compressor technology for over 86 years.

**ChangeAir:** Unit ventilators engineered with excellence for greener classrooms.

**CORE Energy Recovery Solutions:** High performance Energy Recovery Ventilator (ERV) Cores for the HVAC industry featuring an advanced polymer membrane that provides significant health benefits and energy savings.

**Danfoss:** Proven name in variable frequency drives for decades. New VLT-HVAC variable frequency drive, soft starts, native BACnet, and stand-alone AHU operation.

**Dynamic Air Quality Solutions:** Innovative, technologically advanced and affordable air quality solutions optimized to reduce energy consumption. Products include active media, sterile sweep UV and air purification systems.

**Epsilon:** Prefab central plants, pump houses, and pump skids. Central plants with high quality factory labor, shorter lead times, factory-tested systems, and less cost.

**FAFCO:** The world's largest manufacturer and innovator of polymeric heat exchangers, presents IceStor thermal energy storage systems. IceStor integrates with new or existing AC systems to generate immediate cost savings and long-term protection against rising energy costs.

**Global Plasma Solutions:** GPS provides patent pending, cold plasma air purification technology that can be used as a substitute for UV lights and carbon products, but without the replacement costs and maintenance associated with those systems.

**Haakon Industries:** University & hospital grade custom air handling units and packaged mechanical systems. Custom manufacturing gives the ability to design the perfect AHU for each project. Advanced drafting capability allows quick turnaround for CAD drawings on the most complicated designs.

**Heat Pipe Technologies:** Heat Pipe Technologies produces the most advanced line of heat recovery heat pipes and dehumidification available for HVAC applications.

**IMI Flow Design:** A brand leader in manual & automatic flow control devices, IMI Flow design delivers flexibility, energy savings and high performance in solutions for HVAC systems, including potable water applications. Products and technical support of the highest quality and delivery times that promptly meet your project

**HTS Packaged Central Plants:** Custom, high-quality packaged central plants built to your specifications for quick installation.

**International Environmental (IEC):** Worldwide fan coil leader. IEC provides integrated engineered solutions for hotels, office towers, hi-rise condominiums, schools, universities, medical facilities and more.

**Innovent:** Custom manufacturer of commercial and industrial HVAC equipment including 100 percent outside air units, rooftop units, wheel and flat plate energy recovery units, gas heat and cooling, UL listed electric heat, all aluminum units or other special casing construction and sectionalized equipment.

**Johnson Air Rotation:** Warehouse and large open area HVAC units. Chilled water, DX and heating. Low installation costs. Low operating costs. Tight temperature control. Guaranteed.

**Krueger HVAC:** Since 1948, Krueger HVAC has been a market-leading manufacturer of air distribution products, delivering quality, innovative solutions and providing first-class customer service to the HVAC industry.

**Legacy Chiller Systems, Inc.:** Process chillers for industrial/hospital applications.

**Motivair:** Motivair is a leading supplier of specialty chillers and cooling systems for data centers, hospitals, industrial applications, institutional and commercial buildings.

**Nepronic:** With an emphasis on innovative thinking and design, Nepronic manufacturers actuators, controls, actuated valves, humidifiers and duct heaters.

**Poolpak:** A leader in providing indoor pool dehumidification for over 25 years.

**Seasons4:** Custom Packaged Rooftops and Air Handler Units with superior performance and quality. These custom HVAC systems are offered for new construction and replacements, each engineers to specific performance requirements

**STULZ:** Privately owned, global manufacturer of highly efficient temperature and humidity management technology for mission critical applications.

**Systemair:** The company was founded in 1974 with a pioneering idea in developing and introducing the circular in-line centrifugal duct fan that simplifies ventilation systems.

**Tecogen:** Natural gas driven chillers that provide building owners with a reliable, proven, efficient, and cost-effective alternative to conventional electric motor-powered chillers.

**Triatek:** Triatek provides innovative airflow solutions for critical environments like healthcare facilities and laboratories.

**Twin City Fans & Blower:** Twin City Fans & Blower is an industry leading designer that offers centrifugal fans and blowers, axial fans, and power roof ventilators.

**UVDI:** Ultra-Violet lamps for commercial and hospital applications where flexibility and optimum cleaning power is required.

**Valent:** Manufacturer of premium-quality, high-percentage outdoor air, energy efficient packaged rooftops and split systems, including industry leading energy recovery options. Constructed with premium features to reduce energy consumption, increase control over occupant comfort, and lengthen service life.

**Yellow Jacket:** Yellow Jacket provides well-engineered refrigerant recovery equipment, HVAC vacuum pumps, HVAC hoses and refrigerant gauges for your exacting standards.
